Training of Execution team correlated to Minimum standard requirements and stages of Inspection requirements.

3. Quality Reward

Motivate the team with adequate Bonus and reward based on Rejection/Completion = %.

4. Quality Failures and Investigation, Finding of Root cause and Implementation of Correction.

Identification of Nonconformity in early stage and rectification and subject to correction.

TRANSPORTATION

Transportation has always been an important pillar of every nation's economy and the key to sustainable development. Therefore, it is considered one of the main sectors that contribute effectively to the renaissance of any country.

Without an efficient transport sector, it would be hard to benefit from the basic advantages of any location or invest in the available opportunities for production.

The Transport Division is engaged mainly in Turn-key Projects in respective areas, as follow:

- Rental Vehicles (SUV, BUSES, DOUBLE CABIN)
- Supply (Diesel, Water Supply)
- Equipments
